

Do I need WebConsult or WebStatus?

Is this you?

- Working in a doctor's office, you request authorizations for your patients?

OR

- You work in a facility that performs the procedures and you request authorizations on behalf of ordering physicians?

WebConsult

- WebConsult is an online portal where you can request authorizations and you will also get WebStatus to view requests
- Enroll in WebConsult and provide your ordering physicians

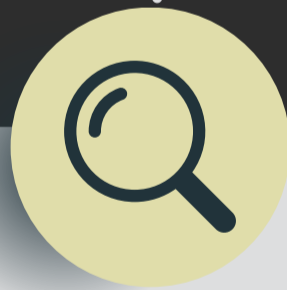

Or is this you?

- You are a facility that needs to see if a patient's procedure is authorized?

OR

- Do you just need to check the status of authorizations?

WebStatus

- WebStatus provides online access to view requests, confirm details and print the authorization once approved.
- Enroll in WebStatus and provide your facilities and/or physicians
