Medical Oncology Drug Coverage

Purpose

To ensure that all medical oncology drug treatments are consistent with established standards of care and evidence-based medicine, this policy outlines the criteria for coverage based on the National Comprehensive Cancer Network (NCCN) found at [NCCN.org](https://www.nccn.org).

NOTE

The NCCN Guidelines and other content provided by NCCN are works in progress that may be refined as often as new significant data becomes available. They are statements of consensus of its authors regarding their views of currently accepted approaches to treatment. Any clinician seeking to apply or consult any NCCN Guidelines or other NCCN Content is expected to use independent medical judgment in the context of individual clinical circumstances to determine any patient's care or treatment. The National Comprehensive Cancer Network makes no warranties of any kind whatsoever regarding their content, use or application and disclaims any responsibility for their application or use in any way.

Policy Statement

The health plan provides coverage for medical oncology drugs as specified in the NCCN Compendium[®]. These guidelines are recognized as the gold standard for cancer treatment and are updated regularly to reflect the latest evidence and expert consensus.

Scope

This policy applies to all members receiving medical oncology drug treatments for the following drug categories:

- Antiemetic
- Biologic
- Chemotherapy
- Growth factor
- Hormonal therapy
- Prophylactic therapy

A WNS COMPANY

Eligibility Criteria

All the following criteria must be met for coverage.

- **Diagnosis:** The member must have a confirmed diagnosis of cancer as documented in medical records.
- **Nationally Accepted Guidelines:** The prescribed drug treatment must comply with nationally accepted guidelines, which reflect evidence-based consensus that the regimen is appropriate for the specific cancer type and stage
- **Medical Necessity:** The treatment must be deemed medically necessary by the treating oncologist and consistent with the member's individualized treatment plan.
- **FDA Approval:** The drug must be approved by the U.S. Food and Drug Administration (FDA) for the specific indication or be recognized in the NCCN guidelines for off-label use.

NCCN Categories of Evidence and Consensus

Indications and uses of injectable oncology medications, including therapeutic radiopharmaceuticals, are listed in the NCCN Compendium with Categories of Evidence and Consensus outlining the appropriateness of the drug intervention.

- Category 1
- Category 2A
- Category 2B
- Category 3

Covered Drugs

The following drugs are considered covered when ordered and administered in accordance with the NCCN Compendium. The following list of medications is provided for reference purposes only and may not be all inclusive. Listing of a medication in this policy does not imply that it is a covered or non-covered health service. Benefit coverage is determined by the member specific benefit plan document and applicable laws that may require coverage for a specific service.

ado-trastuzumab emtansine	cabazitaxel
aprepitant	carboplatin
atezolizumab	carfilzomib
avelumab	cemiplimab-rwlc
azacitidine	cetuximab
BCG live intravesical instillation	cisplatin, powder or solution
bevacizumab-awwb (Mvasi)	daratumumab

A WNS COMPANY

bevacizumab-bvzr (Zirabev)	daratumumab and hyaluronidase-fihj
bortezomib (Velcade)	darbepoetin alfa
brentuximab vedotin	decitabine
degarelix	octreotide
denosumab	oxaliplatin
docetaxel	paclitaxel
doxorubicin hydrochloride	paclitaxel protein-bound particles
doxorubicin hydrochloride, liposomal	palonosetron hcl
durvalumab	panitumumab
eflapegrastim-xnst	pegfilgrastim
elotuzumab	pegfilgrastim-apgf (Nyvepria)
enfortumab vedotin-ejfv	pegfilgrastim-bmez (Ziextenzo)
epoetin alfa	pegfilgrastim-cbqv (Udenyca)
epoetin alfa (Retacrit)	pegfilgrastim-jmdb (Fulphila)
fam-trastuzumab deruxtecan-nxki	pembrolizumab
filgrastim (g-CSF)	pemetrexed
filgrastim-aafi (Nivestym)	pertuzumab, trastuzumab, and hyaluronidase-zzxf
filgrastim-sndz (Zarxio)	rituximab
fluorouracil	rituximab-abbs (Truxima)
fosaprepitant	rituximab-pvvr (Ruxience)
fosnetupitant and palonosetron	sacituzumab govitecan-hziy
fulvestrant	tbo-filgrastim
gemcitabine hydrochloride	topotecan
goserelin acetate implant	trastuzumab
granisetron hydrochloride	trastuzumab-anns (Kanjinti)
irinotecan	trastuzumab-dkst (Ogivri)
lanreotide	trastuzumab-qyyp (Trazimera)
leuprolide acetate	trilaciclib
leuprolide injectable, camcevi	triptorelin pamoate
lurbinectedin	vincristine sulfate
mitomycin	zoledronic acid
nivolumab	
obinutuzumab	

NOTE: Any U.S. Food and Drug Administration approved product that may belong to the included NCCN drug categories but not listed by name in this policy will undergo an individual Prior Authorization review.

Pediatric Coverage

All chemotherapy agents for individuals under the age of 19 years for oncology indications are considered covered. Most pediatric patients receive treatments on national pediatric protocols that are quite similar in concept to the NCCN guidelines.

Medicare Advantage Coverage

Coverage determinations for Medicare Advantage members will follow the Commercial guidelines above except where an NCD or LCD/LCA published by CMS outlines different criteria. <https://www.cms.gov/medicare-coverage-database/search.aspx>

Exclusions

The following are excluded from coverage:

- Experimental or investigational drugs not included in the NCCN Compendium.
- Treatments not approved by the FDA for the specific indication unless supported by NCCN Compendium for off-label use.

Medical Oncology Summary of Changes

Medical Oncology guideline from 2025 to 2026 had the following changes:

Table 1. 2026 Medical Oncology Summary of Changes

Date	Type of Change	Summary
11/24/2025	Annual Review	<ul style="list-style-type: none"> • Updated "NCCN Categories of Evidence and Consensus" to reflect NCCN
02/13/2026	Mid-Cycle Review	<ul style="list-style-type: none"> • Added NCCN Categories for clarity

Disclaimer section

Purpose

The purpose of the HealthHelp's clinical guidelines is to assist healthcare professionals in selecting the medical service that may be appropriate and supported by evidence to safely improve outcomes. Medical information is constantly evolving, and HealthHelp reserves the right to review and update these clinical guidelines periodically. HealthHelp reserves the right to include in these guidelines the clinical indications as appropriate for the organization's program objectives. Therefore the guidelines are not a list of all the clinical indications for a stated procedure, and associated Procedure Code Tables may not represent all codes available for that state procedure or that are managed by a specific client-organization.

A WNS COMPANY

Clinician Review

These clinical guidelines neither preempt clinical judgment of trained professionals nor advise anyone on how to practice medicine. Healthcare professionals using these clinical guidelines are responsible for all clinical decisions based on their assessment. All Clinical Reviewers are instructed to apply clinical indications based on individual patient assessment and documentation, within the scope of their clinical license.

Payment

The use of these clinical guidelines does not provide authorization, certification, explanation of benefits, or guarantee of payment; nor do the guidelines substitute for, or constitute, medical advice. Federal and State law, as well as member benefit contract language (including definitions and specific contract provisions/exclusions) take precedence over clinical guidelines and must be considered first when determining eligibility for coverage. All final determinations on coverage and payment are the responsibility of the health plan. Nothing contained within this document can be interpreted to mean otherwise.

National and Local Coverage Determination (NCD and LCD)

NOTICE

To ensure appropriate review occurs to the most current NCD and/or LCD, always defer to <https://www.cms.gov/medicare-coverage-database/search.aspx>.

Background

National Coverage Determinations (NCD) and Local Coverage Determinations (LCD) are payment policy documents outlined by the Centers for Medicare and Medicaid Services (CMS) and the government's delegated Medicare Audit Contractors (MACs) that operate regionally in jurisdictions.

A WNS COMPANY

CMS introduced variation between different jurisdictions/Medicare Audit Contractors (MACs) and their associated covered code lists with the transition to ICD 10. The variation resulted in jurisdictions independently defining how codes are applied for exclusions, limitations, groupings, ranges, etc. for the medical necessity indications outlined in the NCD and LCD. Due to this variation, there is an inconsistent use/application of codes and coverage determinations across the United States between the different MACs.

In addition, **WITHOUT** notice, CMS can change the codes that indicate medical necessity and the format of the coverage determinations/associated documents (eg, Articles). This is an additional challenge for organizations to keep up with ongoing, unplanned changes in covered codes and medical necessity indications.

Medical Necessity Codes

Due to the variation in code application between jurisdictions/MACs and that updates can happen without notification, HealthHelp is not able to guarantee full accuracy of the codes listed for any Coverage Determination, and advises that prior to use, the associated Coverage Determination Articles are reviewed to ensure applicability to HealthHelp's programs and any associated NCDs and LCDs.
